Set a Parent-Child Relationship

Parent-Child Relationships are used to create connections between items such as master agreements, task orders, and work orders. This action can be completed from either a parent or child award.

1. Select the Awards tab in MyFunding. Search for the applicable AWD and enter its WorkSpace.

2. Select Set Award Relationships.

3. Search for the parent or child award that you would like to relate to the award that you are currently viewing and click OK.
