# Taking a Closer Look

This lookbook showcases features of Phase 1 of the PERIS™ portal:

- Electronic proposal development, routing, and submission
- Detailed budgeting capabilities
- Real-time proposal tracking

Saves time and  
ensures data accuracy  
with electronic proposal development

- Daily Human Resources (HR) feeds for up-to-date faculty and staff data
- Pre-population of proposal data, such as demographic information and fringe rates

# Electronically routes...

A Proposal for PI, Department, and School approval

+ Eliminates the need for paper stock-0136 forms

Budgets for sub-account approval

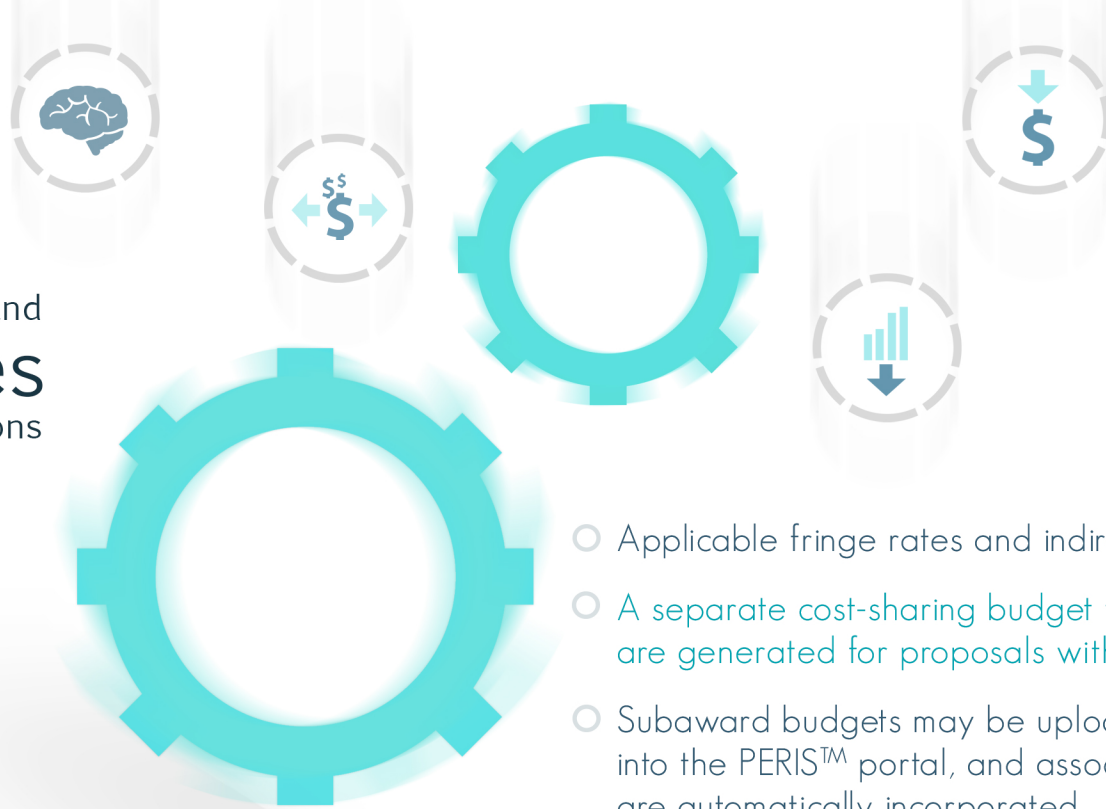

+ Eliminates the need for the sub-account waiver

Submission confirmations through instantaneous e-mail notifications

+ Eliminates uncertainty in the proposal lifecycle

# Automates and Consolidates

frequent budget calculations

- Applicable fringe rates and indirect cost rates are predetermined.
- A separate cost-sharing budget for institutional costs are generated for proposals with cost-sharing.
- Subaward budgets may be uploaded directly into the PERIS™ portal, and associated costs are automatically incorporated.

The History Tab gives an integrated, real-time view of where a proposal is in the development, routing, and submission processes.

Treatment Of Comorbid Sleep Disorders and PTSD
