

## Reviewer Notes

What's new:

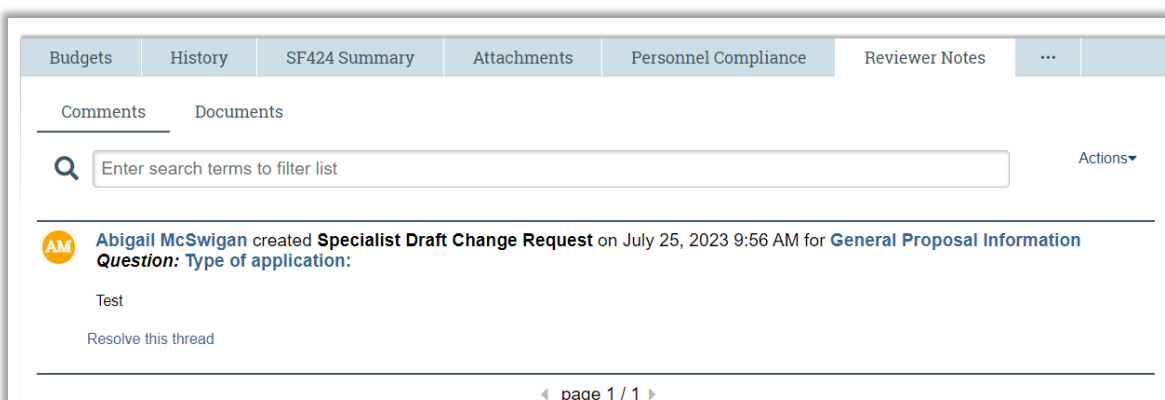

- Visual icons to identify notes that require a response and notes that have been resolved.
- New menu on Reviewer Notes tab to make managing notes from a central location easier.

Example:

1. Displays number of notes in step.
  - Dot means at least one note requires response.
  - Dot is white on selected step.
  - Dot is red on non-selected step.
2. Displays legend to identify meaning of icons.
3. Indicates note marked as response required.
4. Indicates all notes in thread resolved.
